EXPERIENCE

- ❖ **Software Internship "Avro Tech", Feb-2021 to Aug-2021.**
  Technology is the future, I worked as an Intern for "Avro Tech "and contributed skills to team members and the company. I came across new tech and learned and also worked on a new project.

ACADEMIC PROJECTS

- ❖ **Medical billing website -Jan-2022.**
  This project is based on (HTML, CSS, and JS) this technology. This project helps small-scale shops maintain their bills and store them in local storage easily. It also reduces paperwork.

- ❖ **E-Commerce Website -AUG-2022.**
  I have created an E-commerce website based on (HTML, CSS, JS, and ReactJS) this technology. This website features our customers can add products to their cart. Customers can also review the product search product and get offer details. This website is easy to browse.
